

recycleit

with Cartridge World

Accepted cartridges

The Recycle It programme has been created to prevent empty cartridges from needlessly ending up in landfill.

Recycle It accepts ALL cartridges for recycling.

All cartridges that can be refilled by Cartridge World will be reused and 50p for each one will be donated to your school or group.

A 50p donation will be made to the school or group for all original refillable inkjet and laser cartridges from the printer brands below:

- HP
- Lexmark
- Brother
- Canon
- Samsung

All cartridges that are collected but not listed above will be recycled to ensure they do not go into landfill, but unfortunately Cartridge World is unable to make a donation for them.

This includes:

- Any brands not mentioned above
- Ribbon cartridges
- Broken or damaged cartridges
- Cartridges that are not in a working or refillable condition
- Compatible cartridges

Refilling in store

£1.00 will be donated to the school or group for each cartridge refilled in store by a pupil or their parent. Their loyalty card will be stamped at the time of transaction. When full, the loyalty card should be returned to the school or group by the pupil. The card should then be redeemed by the school or group with Cartridge World. Additional loyalty cards are available upon request.

All Cartridge World stores are able to refill all major brands of cartridge from the list above, using specially formulated inks and toners to match the manufacturer's original product, guaranteeing the best print quality at prices up to 60% less than the cost of a replacement.

 REFILL - NOT LANDFILL™
